Addressable Call Points

(ZT-CP3/AD & ZT-CP3/WP/AD)

ZT-CP3/AD/WP

ZT-CP3/AD

ZT-CP3/AD/W

Description

The ZT-CP3/AD and ZT-CP3/AD/WP addressable call points are unique in that they mimic the feel of breaking glass whilst offering the user the benefits and environmental advantages of a re-settable operating element.
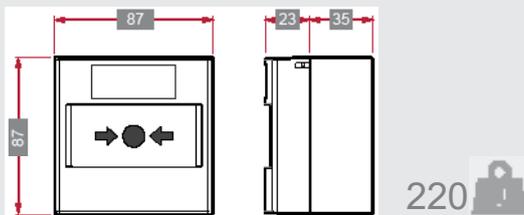

Addressing these call points is via an 8 way dip switch on the back of the call point. The design also provides a visual LED indication to confirm alarm activation.
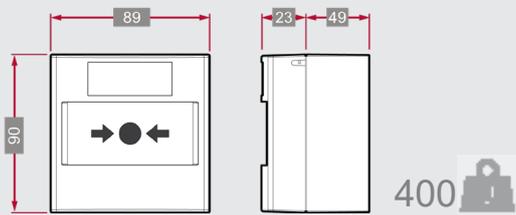

A special Polycarbonate cover (CP3-CV) is available for extra protection against accidental activation and thus allowing the unit to operate as a double action call point. This must be ordered seperately.
